CONSTRUCTION MANAGEMENT

From project scoping through construction, our team works to provide safe, efficient, environmentally sound engineering solutions on and along our 570-mile superhighway.

We are embracing the challenges of adapting to an ever-changing world, with increasing needs for sustainable design, climate-resilient infrastructure and rapidly evolving technologies.

Start on an enriching career path helping us with our mission to provide customers with the highest levels of safety, quality, and service on one of the longest toll superhighways in the nation.

The Thruway Authority seeks to assist employees with their personal and professional goals, and offers comprehensive benefits:

- On-the-job training
- Competitive salary
- Remote work policy
- Tuition assistance
- Valuable experience for professional licensure (PE, LA, LS)
- Professional training and continuing education opportunities
- Collaborative, multi-disciplinary work environment
- Health insurance
- Prescription coverage
- Dental and vision plans
- Paid holiday, vacation, and sick leave
- Vacation exchange pay and paid days for non-use of sick leave
- Pension eligibility
- Deferred compensation retirement plan
- College savings programs
- Pre-tax programs for medical expenses, child care, and elder care
