Section III Tractor Certifications

Applicant Certification

Application is hereby made for approval to use the tractor identified above for use in LCV/tandem operations on the New York State Thruway System. I certify that the tractor identified herein is capable of hauling a LCV/tandem of maximum gross weight not exceeding _____ pounds, at a speed of not less than 20 MPH on all portions of the Thruway System. I further certify that the tractor meets all requirements in the LONGER COMBINATION VEHICLE (LCV)/TANDEM PROVISIONS (TAP-602), and will not be modified or used in LCV/tandem operations on the New York State Thruway System while in violation of these Provisions or other applicable laws, rules or regulations.

Authorized Applicant Representative Name (print or type) Authorized Applicant Representative Signature Date

Company Certification

- New Tractor Original manufacturer of equipment.
- Used* Tractor Used equipment must be thoroughly inspected, and reconditioned if necessary, before certification is applied for.

* An Applicant operating LCVs/tandems may have its own maintenance department perform the required work or it can authorize a commercial truck garage to perform the required work on its behalf.

I am an authorized representative of the company which manufactured, commercially reconditioned or rebuilt the tractor identified above. I certify that said tractor is capable of hauling LCVs/tandems of a gross weight not exceeding _____ pounds at a speed of not less than 20 MPH on all portions of the Thruway System and meet all requirements in the LONGER COMBINATION VEHICLE (LCV)/TANDEM PROVISIONS (TAP-602).
