

NEW YORK STATE THRUWAY AUTHORITY
DEPARTMENT OF ENGINEERING

ALBANY, NY
August 25, 2016

AMENDMENT NO. 3
TO

CONTRACT TAB 16-26C
D214401
LOCK E-32 BY PASS CULVERT REPAIR
AT MILEPOST E-409.30
IN THE BUFFALO DIVISION
OF THE NEW YORK STATE THRUWAY
IN MONROE COUNTY

IN THE LETTING OF
August 31, 2016

NOTE: This amendment shall be attached to and become a part of the Proposal for Contract TAB 16-26C.

PROPOSAL

1. **Add** the attached Special Note page 8A-A3 to the Contract Proposal. This note provides Non-Navigation Water Levels at Lock E-32.

The Bidder **MUST** complete Page 232 of the Proposal acknowledging receipt of this amendment. If the Bidder fails to complete the "Amendment Acknowledgement" sheet, his bid could be declared informal thereby delaying award of the contract.

PLEASE BE GOVERNED ACCORDINGLY WHEN SUBMITTING BIDS.

Catherine T. Sheridan, P.E.
Chief Engineer

SPECIAL NOTE: NON-NAVIGATIONAL WATER LEVELS AT LOCK E-32

Water level records in the form of logged entries are not available for the non-navigational season. The contractor should be aware of the fact that water levels vary considerably, and levels cannot be controlled to any guaranteed level or range of levels. Therefore, the contractor is advised to design cofferdam as follows:

The following are observed conditions in previous non-navigational seasons:

Lock E-32 lower end, design cofferdams for lower level at 462.5' BCD* minimum.

Lock E-32 upper end, design cofferdams at 487.5' BCD* minimum.

*BCD – Barge Canal Datum
