All consultant engineering agreements (construction inspection, design, etc.) must include Commercial General Liability (CGL) Insurance. The policy providing such coverage must name the NYS Thruway Authority as an additional insured and include a per project aggregate endorsement. Evidence of such endorsement shall be indicated in the appropriate sections of the ACORD 25 and the attached Supplemental Insurance Certificate (form TA-W51343). Both of these forms are now required as evidence of insurance for all Authority agreements.

All insurance requirements can be found on the Authority's website at either link below:
