Q1. Regarding Item 402.197904 - 19 F9 Binder Course HMA, 70 Series Compaction and Item 402.377904 - 37.5 F9 Base Course HMA, 70 Series Compaction: Why are 70 Series Compaction used for these Items you will be placing the material in the FD and partial Depth Repairs only. There are no large amounts of material being placed on a daily basis.

A1. The Authority is requiring 70 series for Base and Binder items used in full and partial depth repairs on the Mainline. The Rice numbers from the plant can be used for the density gauge.

Q2. The Completion Date of November 18, 2022, as stated in the proposal, does not seem possible based on the amount of work in this project.

A2. To date, no one else has expressed a concern regarding the project completion date. At this time the completion date will remain as November 18, 2022. Please bid accordingly.
