

TAS 25-30B / D215056
Replacement of the North Main St. (NY Route 46) Bridge
over Thruway (I-90) at Milepost 257.09 in Madison County

QUESTIONS AND ANSWERS

October 14, 2025

- Q1. The Summary of Earthwork on EW-1 is missing information. The volumes/columns for C_B, C_S, T_U, F_B, and F_S are missing/hidden. Can this information be provided?

It also appears that there is no item included in the bid for Topsoil.

- A1. On Drawing Number EW-1, sheet 23 of 71, the value for T_E (Total Earth Excavation Assumed for Embankment Construction) in the North Main Street row should (also) be 631.0 (Cubic Yard). Identifying this in the table will not change the quantity for Item 203.02, Unclassified Excavation and Disposal (Cubic Yard). The rest of the values in the Summary of Earthwork table that have been left blank are zero.

Per NYSDOT Standard Specification 610-1.14, topsoil is included in the unit price bid for Item 610.1605, Turf Establishment Performance, SY.
